## SKILLS

---

- |                       |              |                   |                           |
|-----------------------|--------------|-------------------|---------------------------|
| • Python              | • Node.js    | • Git / GitHub    | • Agile/Scrum             |
| • C / C#              | • Express.js | • MongoDB / MySQL | • Team player             |
| • Java                | • React      | • Unittest        | • Problem-solver          |
| • JavaScript / jQuery | • UiPath     |                   | • Excellent Communication |

## PROJECTS

---

### SCHOOL PROJECT <Full Stack Developer> | LinkMorpher

Sept 2023

- Collaborated with a classmate to develop a dynamic website allowing users to create links for images, and text content while also shortening URLs.
- Implemented a secure web application using Node.js, Express, EJS, MySQL and Bootstrap technologies.
- Demonstrated expertise in utilizing existing Node.js modules to safeguard against MySQL injects, ensuring data privacy and security.

### PERSONAL | PDF Summarizer

Aug 2023

- Created a Python script capable of parsing PDF files and generating concise summaries, integrating the ChatGPT API and a text-rank algorithm.

### PRACTICUM <Mobile Developer | Project Lead> | Neartuit

April 2023 - May 2023

- Led the development of a mobile application using Flutter to visualize available public art data on a customized Google Maps.
- Crafted a user-friendly UI/UX using Figma and actively contributed to the frontend of the application
- Implemented a data storage mechanism for storing thousands of public art records on the user's local device.

### HACKATHON <Full Stack Developer> | Interview

March 2023

- Collaborated within a four-member team to address job security issues.
- Constructed an MVP web application in 24 hours, harnessing React, Tailwind, Python and the ChatGPT API. This allowed students to engage with a simulated interviewer, facilitation interview practice.
- Resolved issues related to the connection between Django server and Firebase server to enable seamless user login functionality

## EDUCATION

---

### Computer System Technology (CST) | Diploma

Jan 2022 – December 2023

British Columbia Institute of Technology – Vancouver, BC

- Learning software engineer and programming from industry professionals and gain experience working on real projects, from concept to deployment.

### UiPath Certified Professional Associate RPA Developer (UiRPA) | Certification

Aug 2023
